KANSAS COMMITTEE

Appointed By Governor to Cooperate with Oklahoma Committee.
WICHITA, KANSAS, April 3.—The committee appointed by the governor in compliance with a resolution adopted by the legislature to hold a conference with similar committees of the Oklahoma and Texas legislatures to secure lower rates to the Gulf, met in this city today. The committee has been in conference with the Wichita shippers, who manifest intense interest in the movement. An address will be prepared setting forth the views of Kansas shippers on the question.
Senator Lewelling, of the state board of railroad commissioners, was present today and presented an invitation from the board to the committee, asking it to meet with the Texas, Oklahoma and Kansas railroad commissioners at Austin April 16, when the rate question will be argued before the interstate commerce commission.
Senator Campbell, of the committee, said he believed there was never a more opportune time to make a united move for lower rates to the Gulf than the present, particularly in view of the recent far-reaching decision of the United States Supreme Court. On Monday the Kansas committee will meet with the Oklahoma legislative committee at Oklahoma City, and on April 15 all three committees will meet at Austin.
A vote for Jim Montgomery for street commissioner is a vote for good streets and a reduction of taxes.

FIGHT VIEWS NO GOOD.

Kinetoscope Pictures of the Carion Fight Are a Failure.
New York, April 3.—According to the statement made by E. J. Rector, there is a dark future—or rather, no future—ahead for the kinetoscope views of the Fitzsimmons-Corbett fight. Rector says that the views taken at the ringside are dismal failures.
The negatives were sent to the Edison laboratory in Orange, N. J., to be developed, and Frank Gammon, manager of the vitascope, under whose direction the negatives are developed, confirms Rector's statement.
Those who believe that Mr. Rector's talk about the failure of the kinetoscope pictures is only a bluff, designed to put an end to the unfavorable legislation that is threatened.

He is a bright, intelligent young man, and although a newcomer and much to content with, he will undoubtedly do well in his new job. Among the other Guthrie doctors who nobly responded to Chandler's call were Doctors Verne Smith, Central Baker and Mayor. Other local physicians would have volunteered their services had they been apprised of the calamity in time.
